### Non-Infections (n=113, 10%)

A map of Nigeria divided into its 36 states. Each state is labeled with a box containing a fraction representing its share of the total population of 12,000,000. The states are shaded in three colors: white, light green, and dark green. The fractions are as follows:

| State   | Population Fraction | Shading     |
|---------|---------------------|-------------|
| Abia    | 4/12                | Dark Green  |
| Adamawa | 2/5                 | White       |
| Delta   | 4/14                | Dark Green  |
| Enugu   | 1/13                | Light Green |
| Imo     | 4/9                 | White       |
| Kaduna  | 3/7                 | White       |
| Kano    | 0/2                 | White       |
| Kogi    | 1/3                 | Dark Green  |
| Lagos   | 1/5                 | White       |
| Niger   | 1/8                 | White       |
| Ogun    | 1/3                 | White       |
| Ondo    | 2/8                 | White       |
| Osun    | 0/10                | Light Green |
| Plateau | 1/13                | Light Green |
| Rivers  | 4/12                | Dark Green  |
| Sokoto  | 2/9                 | White       |
| Taraba  | 2/5                 | White       |
| Yobe    | 1/3                 | White       |
| Zamfara | 0/0                 | White       |
